Organize and Dispatch

<p style="text-align: center;">Billing</p> <p>PaperDoDo Billing allows companies to create paperless invoices, email them to clients, and collect payments all within the Geotab platform.</p>	<p style="text-align: center;">Our Story</p> <p>We started as a pest control company and grew to 5 trucks and 10 employees overnight. We had many customers but our workflow processes were inefficient. Management became a huge headache. Employees would show up late, write illegible paperwork, inflate timesheets, and use company vehicles to run personal errands.</p>	 <p style="text-align: center;"><i>Making Paper Extinct</i></p>
<p style="text-align: center;">Time Tracking</p> <p>PaperDoDo easily and accurately tracks employee hours. Drivers punch in and out from their smartphones or tablet. Exact locations and times are stored for the manager to edit and approve. PaperDoDo Timecard reduces: payroll inflation, labor costs, and time to process payroll.</p> <p style="text-align: center;">Scheduling and Dispatching</p> <p>PaperDoDo makes scheduling, dispatching, and communicating with drivers more efficient. Dispatchers can book appointments within Geotab and see a bird's eye view of the entire fleet. Dispatchers drag and drop appointments to closest drivers. Drivers get instantly updated on their smartphone or tablet.</p>	<p>We began looking for a solution that would track employees, make our business paperless, accept payments at the doorstep, and communicate in one centralized location. We searched for solutions but could not find anything that was simple and affordable. We found other software overpriced, difficult to use and not performing the tasks we wanted for our business.</p> <p>So we decided to build our dream workforce management software.</p> <p>We knew we could make something easier to use that would improve business, eliminate paperwork, and increase overall profits. Introducing PaperDoDo.</p> <p>And the name? We want to make paper extinct - like the Dodo bird.</p>	 <p style="text-align: center;">Benefits</p> <ul style="list-style-type: none"> • Dispatch 20% more appointments • Decrease admin work by 90% • Increase revenue by 20% • Reduce expenses by 10% • Increase profit margins
