YOUR SECURITY AND SAVINGS TOOL

With our fleet system, each vehicle is assigned a card and each driver is assigned a unique identification number – one cannot be used without the other. Drivers enter the current odometer reading of the vehicle at the time of purchase along with the identification number. With all this information captured electronically, we bring you the ultimate reporting tool. No matter how many vehicles you are tracking expenditures for; we provide information the way you need it – **USEFUL, FLEXIBLE, POWERFUL.**

EXCEPTIONS: Trouble spots are flagged, helping to prevent abuse.

CONTROL: Reduce costs by managing fuel types.

COST SAVINGS: Administrative time is reduced and fiscal reporting is easy with monthly and year-to-date reporting.

VEHICLE PERFORMANCE: Both miles-per-gallon and cost-per-mile are calculated so you can track vehicle performance at a glance.
